November 15, 2024

Board of Directors, CCWSA Customers of the Cherokee County Water & Sewerage Authority And the Citizens of Cherokee County, Georgia

We are pleased to present the Annual Comprehensive Financial Report (ACFR) of the Cherokee County Water and Sewerage Authority for the fiscal year ended August 31, 2024. Cherokee County Water and Sewerage Authority's management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America.

The Cherokee County Water & Sewerage Authority has established internal controls over financial reporting that provide reasonable assurance of proper recording of financial transactions and the preparation of financial statements and the accompanying information. To provide a reasonable basis for making these representations, management of the Authority has established a comprehensive internal control network that is designed to protect its assets from theft, loss or misuse. The cost of a control should not exceed the benefits to be derived as the objective is to provide reasonable, rather than absolute assurance, that the financial statements are free of any material misstatements.

The firm Rushton, LLC, conducted an independent audit on the financial statements in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards issued by the Comptroller General of the United States, the financial statements of Cherokee County Water and Sewerage Authority as of and for the year ended August 31, 2024 and the related notes to the financial statements, which collectively comprise Cherokee County Water and Sewerage Authority's basic financial statements. As a result, have issued a clean opinion on the financial statements of the Authority for the year ending August 31, 2024. The auditors' report is located at the front of the financial section of this report.

In accordance with Generally Accepted Accounting Principles, a narrative introduction, overview, and analysis accompany the basic financials statements in the form of Management's Discussion and Analysis (MD&A). This letter of transmittal is designed to complement the contents of the MD&A thus should be read in conjunction with it. Management's Discussion and Analysis is located immediately following the report of the independent auditors on pages 4-8.

It is anticipated that this Annual Comprehensive Financial Report (ACFR) may be read by a variety of users. The typical user of the Authority's financial report may vary greatly in terms of informational needs and expertise in governmental accounting.

#### Profile of Cherokee County Water & Sewerage Authority

The Cherokee County Water & Sewerage Authority (CCWSA) was established as a subdivision of the government of the State of Georgia by an act of the Georgia Legislature in 1955. This Authority was created for the express purpose of providing public drinking water and sanitary sewer services to the citizens of Cherokee County. CCWSA has performed this mission since establishment, adding infrastructure and treatment systems in response to growing demands for services.

CCWSA is a public not-for-profit governmental entity tasked with the provision of drinking water and sanitary sewer services to Cherokee County. The Authority has no taxing powers, is not a part of Cherokee County government, and does not receive any tax revenue from county or city governments. CCWSA sells the services of high-quality drinking water and efficient sewage conveyance and treatment, the charges for which go to pay on-going operations and maintenance costs. New customer connections fees are designed to repay any moneys the Authority borrows for capital improvement projects such as new or expanded water and sewer lines, or new or expanded treatment facilities.

The Authority owns and operates a water supply, treatment, distribution system, sanitary sewer treatment, and collection system. Currently the Authority pumps raw water from three separate raw water pump stations located on the Etowah River to a 15-acre presettling reservoir at the Etowah River Water Treatment Plant. Two of the intakes are located at the Water Treatment plant site, while the third raw water intake is located at the Riverbend Environmental Complex. The Riverbend raw water intake is located approximately 2,600 feet downstream from the Etowah River Water Treatment Plant and became operational in June 2016. The Authority currently owns three raw water pump stations located at each intake on the Etowah River with an aggregate raw water pumping capacity of 50 million gallons per day ("MGD"). The Authority maintains a presettling reservoir, with storage capacity of approximately 15 million gallons, a raw surface water supply with a daily allotment of water of up to 40.5 MGD, one water treatment plant with a rated capacity for treatment of raw water of 38 MGD, a finished water pump station rated capacity of 45 MGD and a cumulative distribution storage tank capacity of 17.15 million gallons. The Authority has a water distribution network of approximately 1,380 miles of pipeline. The water system serves an approximate 300 square mile area containing an estimated population in excess of 240,000 and has approximately 85,518 active water connections/customer accounts.

The sewerage system consists of three active wastewater treatment plants with an aggregate treatment capacity of 18.75 MGD and a wastewater collection system of 90 wastewater pumping stations and approximately 600 miles of gravity mains. The sewerage system serves an approximate 100 square mile area containing an estimated population in excess of 118,000 and has approximately 42,182 active sewer connections.

#### Governance

CCWSA is governed by a seven-person board of directors. The directors serve four-year terms and there is a term limit of two consecutive terms (8 years). A director who has served the term limit is eligible for reappointment after being off the Board for at least 4 years. The Board members are representative of the citizens of Cherokee County, and must be a customer of CCWSA. Cherokee County is divided into four districts for representation. A member is appointed from each of the four districts. Those members must be a CCWSA customer and represent one of the four respective districts.

Another member must be a CCWSA customer and is deemed the "at-large" member representing the county as a whole. Another member must be a CCWSA customer in one of the cities within the county that has consolidated its water and wastewater systems with the Authority. These six board members are appointed by the Grand Jury of Cherokee County. Candidates for appointment undergo questioning, qualification review and other scrutiny by the Grand Jury during the appointment process. This appointment process is somewhat unique since water/wastewater systems are most often part of a city or county government where appointees are either elected officials or political appointees. The apolitical appointment process has allowed the CCWSA Board to make decisions about water and sanitary sewer services for the citizens of Cherokee County based on need and economic viability instead of political expediency. The Chairman of the Cherokee County Commissioners is automatically the seventh board member by virtue of his/her elected position.

### Accounting and Financial Reporting

The accounting and financial reporting treatment applied to governmental entities is determined by measurement focus. The Authority's operations are accounted for entirely as a proprietary governmental fund type with an economic resources measurement focus. The financial statements are prepared in conformity with generally accepted accounting principles on the accrual basis of accounting whereby revenue is recognized when earned, expenses are recorded when incurred and all long-term assets, receivables, debt and other obligations are recognized.

### **Operating Budget**

The Authority is not legally required to adopt a budget. The staff of the Authority, however, prepares an annual operating budget for management control purposes. The Authority uses the accrual basis of accounting in its annual operating budget. The Authority's Board of Directors approves the budget and any changes made thereto.

#### **Current Economic Environment**

#### Local & National Environment

Cherokee County Water & Sewerage Authority supplies water to a geographic area of approximately 300 square miles containing a population in excess of 240,000. The population of Cherokee County is estimated to be in excess of 286,000. In addition, CCWSA provides sewer services to a geographic area of approximately 100 square miles containing a population in excess of 118,000. Prior to the national economic downturn, Cherokee County experienced rapid growth. For Fiscal Year 2024 there was a decrease in new connections in comparison to prior years due to rising construction costs, economic instability and inflation. Currently, there is every indication for the near future CCWSA will continue to see growth; however, the projection is at a slower rate than in years 2015 through 2024 due to the current state of the economy with inflation on the rise.

#### **Continuous Improvement**

The staff of the Authority has developed a multi-year capital improvements program and a plan to finance the program which relies on a combination of system revenues and proceeds of debt and investment earnings on such proceeds. The capital improvements program allows the staff of the Authority to plan, on a long-term basis, for future system capital needs. The capital improvements program is updated on an annual basis. Please refer to the Management's Discussion and Analysis (MD&A) on page 7 for more detailed information.

#### Long Term Financial Planning & Considerations

When the need arises, the Authority incurs capital financing debt through the issuance of revenue bonds. The Authority makes sinking fund deposits monthly for all issues. Annual totals are at least equal to the principal installments of and interest payable on the bonds in the current sinking fund year.

The various resolutions providing for the revenue bonds require that the Authority establish and maintain a schedule of rates, fees, and charges for services furnished by the systems to produce in each sinking fund year "net system revenues" in an amount at least equal to 1.20 times the highest annual amount of principal and interest payable on the bonds during any future sinking fund year. Effective with the issuance of the Series 2001 bonds, the Authority's annual net system revenues exclusive of water connection and sewer tap fees must be no less than this highest annual amount of debt service payable during any future sinking fund year.

The Authority currently will continue to rely on operating revenues and connection fees contributions on a pay-as-you-go basis. In addition, proceeds from the Series 2023 Bond

Issue will be used to fund certain capital improvement projects. If the need arises, the Authority's Capital Improvement Program will be funded through issuance of new debt.

#### Major Initiatives

The Cherokee County Water & Sewerage Authority continues to experience growth in its customer base. Current trends indicate that this growth will continue throughout the county, thereby requiring additional treatment capacity, upgrades and expansions.

The Authority has developed a capital improvements program to plan initiatives for the wastewater treatment facilities, the collection system, distribution system and water treatment facilities.

To satisfy present and future wastewater treatment needs, the Authority completed the Riverbend Wastewater Treatment Complex in September 2018 with a planned expansion to 4 MGD within the current multi-year capital improvements plan with an estimated cost at this time of \$60 million. The Fitzgerald Creek Wastewater Treatment Facility expansion to 11.75 MGD is scheduled for final completion in late 2024. In addition, the Authority is in the design phases of the Wastewater Sludge Drying Facility consisting of a thermal drying facility that will reduce the amount of wastewater sludge that is a waste by-product of our facilities, by an approximate 4 to 1 ratio. The estimated cost of this project is currently \$30 million. This addition reduces the amount of landfill disposal, which will reduce our current disposal fees, and can potentially be a marketable product to the agricultural community. The estimated completion of Phase 1 is late 2026.

The Riverbend Environmental Complex includes a 4.5 MGD fresh water withdrawal permit that has been converted from an Industrial permit to a 4.5 MGD potable water withdrawal permit. The Authority completed the raw water intake and pump station in June 2016. The intake is located approximately 2,600 feet downstream from the Authority's other two raw water intakes on the Etowah River. The improvements included an upgrade to the pumping station in order to tie the raw water delivery pipeline into the Authority's existing pre-settling reservoir and will provide an additional 4.5 MGD of raw water capacity. An additional upgrade is included in the capital improvements program to begin in 2025.

Other initiatives completed in 2024 include the Etowah River Water Treatment Plant asset replacement of the plate settlers. New initiatives in the capital improvements program for 2025 will include a raw water pond expansion and a high service redundancy pumping project. The High Service Redundancy Project consists of the construction of a redundant water pumping station at the Etowah River Water Treatment Facility at an estimated cost of \$21 million. The project is estimated with a completion date of early/mid 2026. In addition to these initiatives, the Authority plans to add a Water Tank at a southwest site in Cherokee County.

The distribution system includes initiatives involving major road and highway relocations, line extensions, and improvements. Specifically, the Highway 20 Relocation Project is driven by a 4-lane widening of State Route 20 from Canton City limits to Forsyth County line by Ga DOT. This will result in CCWSA relocating existing water mains along the route. Additionally, the Authority is in the design phase of a new administrative office complex with a potential completion date of 2026 at an estimated cost of \$25 million. Finally, the Authority is in the process of moving forward with its AMI Project that will replace and upgrade its meter infrastructure at an estimated cost of \$35 million.

#### Awards and Acknowledgements

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to Cherokee County Water & Sewerage Authority for its annual comprehensive financial report for the fiscal year ended August 31, 2023. In order to be awarded a certificate of Achievement, a government must publish an easily readable and efficiently organized comprehensive annual financial report. This report must satisfy both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe that our current annual comprehensive financial report continues to meet the Certificate of Achievement Program's requirements and we are submitting it to the GFOA to determine its eligibility for another certificate.

It is our pleasure to express gratitude to the management of each department of the Authority. Gratitude should also be expressed to the staff of the Finance Department for the dedication to the financial integrity of the Authority that makes this report possible. It truly is a commitment from each staff member to assist in compiling the information and assure that each transaction is properly and accurately accounted for. Finally, an enormous amount of thanks is expressed to the Board of the Authority. The Board of Directors' leadership, vision, and professionalism is of highest integrity. The support received from the Board is greatly appreciated and is of utmost importance to the financial integrity and operations of the Authority.

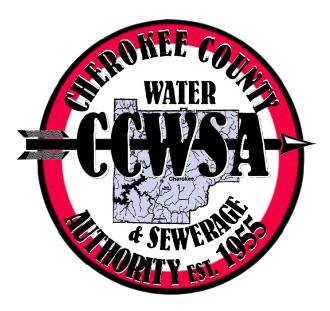

Respectfully,

Dwayne Fowler General Manager

Beth Jones Finance/Accounting Manager

#### **Independent Auditor's Report**

To the Board of Directors Cherokee County Water and Sewerage Authority Canton, Georgia

#### **Report on the Audit of the Financial Statements**

#### Opinion

We have audited the accompanying financial statements of Cherokee County Water and Sewerage Authority, as of and for the year ended August 31, 2024, and the related notes to the financial statements, which collectively comprise the Cherokee County Water and Sewerage Authority's basic financial statements as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of Cherokee County Water and Sewerage Authority, as of August 31, 2024, and the respective changes in financial position and cash flows thereof, for the year then ended in accordance with accounting principles generally accepted in the United States of America.

#### Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Cherokee County Water and Sewerage Authority and to meet our ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

#### Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America; and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Cherokee County Water and Sewerage Authority's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

#### Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards and *Government* Auditing Standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Cherokee County Water and Sewerage Authority's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Cherokee County Water and Sewerage Authority's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

#### **Required Supplementary Information**

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and the required supplementary information on pages 4 through 8 and 49 through 55, respectively, be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

#### Supplementary Information

Our audit was conducted for the purpose of forming an opinion on the financial statements that collectively comprise Cherokee County Water and Sewerage Authority's basic financial statements. The schedules in the supplementary information are presented for purposes of additional analysis and are not a required part of the basic financial statements. The schedules in the supplementary information are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedules in the supplementary information are fairly stated in all material respects in relation to the financial statements as a whole.

#### Other Information

Management is responsible for the other information included in the annual report. The other information comprises the introductory and statistical sections but does not include the basic financial statements and our auditor's report thereon. Our opinions on the basic financial statements do not cover the other information, and we do not express an opinion or any form of assurance thereon.

In connection with our audit of the basic financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the basic financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

#### Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated November 15, 2024, on our consideration of Cherokee County Water and Sewerage Authority's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts, grant agreements, and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Cherokee County Water and Sewerage Authority's internal control over financial reporting and compliance.

Rushton, LLC

Certified Public Accountants Gainesville, Georgia November 15, 2024 This page intentionally left blank.

#### MANAGEMENT'S DISCUSSION AND ANALYSIS

AUGUST 31, 2024

Our discussion and analysis of Cherokee County Water and Sewerage Authority's financial performance provides an overview of the Authority's financial activities for the fiscal year ended August 31, 2024. Please read it in conjunction with the Authority's financial statements that begin on page 9.

#### USING THIS ANNUAL REPORT

This Annual Comprehensive Financial Report is presented in three sections: Introductory, Financial, Statistical and Other Reporting Section. The basic financial statements consist of the Statement of Net Position, Statement of Revenues, Expenses, and Changes in Net Position, Statement of Cash Flows, and the Notes to the Financial Statements. The Statement of Net Position and the Statement of Revenues, Expenses, and Changes in Net Position provide information about the activities of the Authority and present a long-term view of the Authority's finances.

One of the most important questions asked about the Authority's finances is "Is the Authority as a whole better off or worse off as a result of the fiscal year's activities?" The Statement of Net Position and the Statement of Revenues, Expenses and Changes in Net Position report information about the Authority and about its activities in a way that helps answer this question. These two statements include all assets, deferred outflows of resources, liabilities, deferred inflows of resources, and net position using the accrual basis of accounting, which is similar to the basis that is used by most private-sector companies. All of the current year's revenues and expenses are taken into account regardless of when cash is received or paid.

These two statements report the Authority's net position and the changes in it. You can think of the Authority's net position – the difference between assets, deferred outflows of resources, liabilities, and deferred inflows of resources – as one way to measure the Authority's financial health. Over time, increases or decreases in the Authority's net position are one indicator of whether its financial health is improving or deteriorating. You will need to consider other nonfinancial factors, however, to assess the overall health of the Authority.

#### THE AUTHORITY AS A WHOLE

The Authority's net position increased in fiscal year 2024 by approximately \$39.1 million, from the beginning of the fiscal year, from \$500.4 million to \$539.5 million. Approximately \$16.9 million of the increase in the current fiscal year was donated assets attributable to contributions by developers, primarily of water and sewer lines. In addition, the increase in net position can be attributed to sewer tap and water meter connections of approximately \$12.1 million. The following tables focus on the Authority's net position (Table 1) and changes in its net position (Table 2).

#### MANAGEMENT'S DISCUSSION AND ANALYSIS

AUGUST 31, 2024

The Authority's revenues increased in 2024 by approximately \$13.4 million, or 20.3% (\$79.5 million in 2024 compared to \$66.1 million in 2023). Total expenses increased approximately \$6.5 million to approximately \$69.5 million, or an approximate 10.3% increase in 2024 compared to the prior fiscal year. The factors driving these results include:

- The number of water customers in 2024 grew by 1.9% and in 2023 grew by 3.1%. The wastewater customer growth rate was 2.6% in 2024 and 3.4% in 2023. The growth of the water and wastewater customers can be attributed to the consistent population growth and new construction activity and development that is occurring throughout Cherokee County specifically in the areas served by CCWSA's sewer system. The Authority's revenues as displayed in Table 2 above shows total revenues increasing by approximately \$13.4 million or 20.3% in FY 2024. Water sales increased approximately 12.6% as compared with prior year and sewer sales revenue increased approximately 12.3% as compared with the prior year. Revenue for the Authority increased approximately 20.3% in 2024 compared to 2023 due to a revision to the Authority's water and sewer rate structure. This rate change was effective on April 1, 2023. In addition to the rate revisions, revenue increases were seen due to customer growth in the Authority's service area and base flow increases due to growth in the area. Weather patterns and environmental factors typically impact revenue results. The average daily water demand for 2024 was 20.99 MGD compared to 2023 the average daily water demand was 19.86 MGD. This represents a 5.7% increase in average daily water demand from 2023 to 2024. In addition, the Authority reached its highest maximum daily flow on record during FY 2024 in June 2024 of 31.93 MGD. The most recent rate change and revision to the Water and Sewer Rate Structure was effective April 1, 2023 and prior to that date the most recent rate change and revision was January 1, 2019.
- Total expenses of the Authority increased by approximately \$6.5 million or 10.3 % to \$69.5 million. In regard to departmental expense increases in FY 2024, distribution and administration increased 12.3%. The increase of distribution and administration expenses can be attributed primarily to an increase in employee costs. Wastewater treatment facilities expenses increased 8.6%. Wastewater treatment facilities expenses increase in employee costs, cost of power, operating supplies and chemical increases and maintenance increases. The water treatment facility expenses increased approximately 13.0% in FY 2024. The increase is due to an increase in employee costs, cost of power, operating supplies and chemical supplies and chemical increases along with maintenance increases.
- Non-operating expenses include interest on debt service, loss on disposition of capital assets-net, amortization of deferred amount on refunding and cost of issuance expenses. Non-operating expenses consists of interest expense on debt service increased 46.7% due to the issuance of new debt with the Series 2023 Bond Issue. In addition, non-operating expenses decreased 75.2% due to the cost of issuance fees associated with the issuance of Series 2023 Bonds not being a factor for FY 2024. Nonoperating revenues consist primarily of interest earnings increase compared to FY 2024 of approximately 257.3%.
- The Authority has noted capital contributions revenues of approximately \$29.0 million for FY 2024. As a result of donated lines accepted by the Authority and other contributions, the Authority received donated assets valued at \$16.9 million in FY 2024. In addition to donated lines, the Authority noted sewer tap fees contributions of approximately \$8.9 million. Also, the Authority noted approximately \$3.2 million in meter connection fee contributions. The Authority notes an increase compared to prior year contributions of 20.4% primarily due to an increase in developer donated assets compared to FY 2024.

Management of the Authority attributes the increase in the growth of net position in 2024 primarily to capital contributions and an increase in water and sewer revenue. Contributions include developer contributions and easement valuations valued at \$16.9 million as well as water meter connections and sewer

#### MANAGEMENT'S DISCUSSION AND ANALYSIS

AUGUST 31, 2024

tap fees for approximately \$12.1 million. Water revenue increased for FY 2024 approximately \$4.5 million or 12.6% and sewer revenue increased during FY 2024 in comparison to FY 2023 by approximately \$2.7 million or 12.3% In addition, excess before contributions increased \$6.9 million or 220.0% due to revenue increases consisting of water and sewer sales increases of 12.6% and 12.3%, respectively and non-operating revenues increases of interest earnings of 257.3%.

#### CAPITAL ASSET AND DEBT ADMINISTRATION

#### **Capital Assets**

At August 31, 2024 and 2023, the Authority had \$545.9 million and \$531.9 million, respectively, invested in a range of capital assets including equipment, buildings, land and water and sewer lines (see Table 3). This represents a net increase after additions and disposals of approximately \$14.0 million in 2024.

#### Table 3 - Capital Assets at Fiscal Year End (Net of Depreciation - in thousands)

	8/31/2024	8/31/2023
Land and easements	\$ 15,066	\$ 14,039
Construction in progress, including structures,		
improvements & equipment not in service	55,985	51,643
Total nondepreciable	71,051	65,682
Structures and improvements	720,931	699,487
Machinery and equipment	20,585	18,345
Office furniture and equipment	379	379
Intangible right-to-use assets – software	644	484
Total depreciable/amortizable	742,539	718,695
Less accumulated depreciation/amortization	(267,709)	(252,490)
Net capital assets	\$ 545,881	\$ 531,887

The staff of the Authority has developed a multi-year capital improvements program and a plan to finance the program, which relies on a combination of system revenues and proceeds of debt and investment earnings on such proceeds. The capital improvements program allows the staff of the Authority to plan, on a long-term basis, for future system capital needs. Each year the capital improvements program is updated.

The Authority's capital improvement program approved in May 2024 calls for it to spend \$26.1 million for capital projects in 2024-2025, principally for upgrades, improvements and additions to water & wastewater treatment facilities and \$1.5 million for utility relocations within the water system. The extended capital improvement plan consists of \$284.8 million of capital improvement cost estimates including the capital projects beginning in 2024-2025. The Board approved expenditures at the time of approval in May 2024 were \$62.8 million. It should also be noted that spent amounts at the same time on active projects were \$49.6 million. The capital improvements program allows the staff of the Authority to plan, on a long-term basis, for future System capital needs. In connection with existing construction projects, the Authority has outstanding agreements with contractors for approximately \$11.4 million in future work at August 31, 2024. Capital disbursements will be financed by a combination of resources on hand, future system revenues and the proceeds from current or future revenue bonds. More detailed information about the Authority's capital

#### MANAGEMENT'S DISCUSSION AND ANALYSIS

AUGUST 31, 2024

assets is presented in Note 6 in the financial statements. Each year the capital improvements program is updated and reviewed on an ongoing basis throughout the year.

#### **Debt Administration**

At August 31, 2024 and 2023, the Authority had \$163.7 million and \$174.7 million (net of discounts and premiums) in revenue bonds and subscription liabilities outstanding, respectively. The net decrease of \$11.0 million is due primarily to regularly scheduled bond and subscription payments in excess of new subscriptions. Additional information is presented in Notes 7 and 8 to the financial statements.

The Authority's Revenue Bonds have been assigned ratings by Moody's Investors Service, Inc. and Standard and Poor's Rating Services of Aa1 and AA, respectively. Standard & Poor's upgraded the Authority's rating from AA- to AA in May 2011. Moody's Investors Service reviewed, upgraded and assigned a rating of Aa1 to Cherokee County Water & Sewerage Authority Revenue Refunding Bonds Series 2020A and Series 2020B in June 2020. These very high ratings reflect the rating agencies' consideration of factors such as financial liquidity, debt service coverage and the growth rate of the Authority's customer base.

The Authority's other significant obligations include customer deposits, accounts payable, accrued interest, accrued salaries and other expenses as can be seen on the Statement of Net Position.

#### ECONOMIC FACTORS AND NEXT YEARS BUDGET

The 2025 budget and capital improvement program have been prepared taking into consideration that economic and population growth for the Authority's service area will continue. It is expected to continue to see growth in the area although projected at a slightly slower pace than in prior years. Other factors affecting next year's and future budgets are listed below.

- Rates are analyzed on a regular basis and will be adjusted when deemed necessary. The Authority Board passed a rate increase effective as of April 1, 2023. The Authority anticipates the customer base to increase by adding approximately 1,400 new water customers to the system during the year at tapon fees of \$2,500 for regular residential and sprinkler meters and commercial tap-ons sold at varying rates. The Authority estimates an addition of approximately 1,000 new wastewater treatment customers to the system during the year at tap-on fees starting at \$5,000.
- The Authority's Capital Improvement Program is funded through issuance of new debt, capital contributions from tap fees and developers, and operating revenue in excess of operating expenses and debt service expenses. The Authority will continue to rely on operating revenues to fund capital improvements on a pay-as-you-go basis as well as bond proceeds from the Series 2023 Revenue Bond Issue. Management and the Board of Directors will monitor on a regular basis the need to issue new debt to fund capital improvements.

#### CONTACTING THE AUTHORITY'S FINANCIAL MANAGEMENT

This financial report is designed to provide our customers and creditors with a general overview of the Authority's finances and to show the Authority's accountability for the money it receives. If you have questions about this report or need additional information, contact the office of the Authority's Finance Department at 140 W. Main Street, Canton, Georgia 30114.

### CHEROKEE COUNTY WATER AND SEWERAGE AUTHORITY NOTES TO THE FINANCIAL STATEMENTS August 31, 2024

## 1. Description of Authority

Cherokee County Water and Sewerage Authority (the Authority) is a public corporation and body, corporate and politic, an independent governmental unit created and existing under the laws of the State of Georgia. The Authority was created by an act of the General Assembly of the State of Georgia that became effective March 7, 1955. The Authority Act declared that the general purpose of the Authority is to acquire adequate sources of water supply, treat such water and distribute it to the water system throughout Cherokee and adjoining counties. The Authority Act states that this general purpose will not restrict the Authority from selling and delivering water directly to consumers in those areas where water distribution systems do not exist and where no other county or municipality deems it desirable or feasible to furnish water. The Authority Act also provides that the general purpose of the Authority includes sewerage projects.

The Authority Board is composed of seven members. Six members are appointed by the Cherokee County Grand Jury for staggered terms of four years and the seventh member is the current chair of the Cherokee County Commission. The Authority is a fiscally independent entity with self-sustaining operations. No other government is financially accountable for the Authority. The Authority has no taxing power; however, it does have the ability to establish the rates it charges customers. Thus, the Authority is considered a reporting entity in conformity with the Governmental Accounting Standards Board's (GASB) definition. The financial statements of the Authority have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to government units. The more significant accounting policies of the Authority are described below.

# 2. Summary of Significant Accounting Policies

### A. Basis of Presentation

The statement of net position and the statement of revenues, expenses and changes in net position display information in the format of a business-type activity. Such activities are financed through exchange transactions in whole or in part by fees charged to each participant. Exchange transactions are those in which each party receives and gives up essentially equal values. Non-operating revenues and expenses, such as subsidies, investment earnings and interest expense, result from non-exchange transactions or ancillary activities.

### CHEROKEE COUNTY WATER AND SEWERAGE AUTHORITY NOTES TO THE FINANCIAL STATEMENTS August 31, 2024

## 2. Summary of Significant Accounting Policies (continued)

### B. Reporting Entity

The financial statements present the Authority as a business-type activity in accordance with Governmental Accounting Standards Board Statement No. 34.

### C. Fund Financial Statements

The Authority is accounted for as an enterprise fund on a flow of economic resource measurement focus. The accounting objective is a determination of change in net position, financial position and changes in cash flows. All assets and liabilities associated with the Authority's activities are included in its Statement of Net Position.

Enterprise funds are established to account for operations that are financed and operated in a manner similar to private business enterprises, where the intent is that costs of providing goods and services to the general public on a continuing basis are to be financed or recovered primarily through user charges.

# <u>D.</u> <u>Measurement Focus, Basis of Accounting, and Financial Statement</u> <u>Presentation</u>

These statements are reported using the economic resources measurement focus and the accrual basis of accounting. Under the accrual basis of accounting, revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows.

Proprietary funds distinguish operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. Operating expenses for enterprise funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

## 2. Summary of Significant Accounting Policies (continued)

## E. Cash and Cash Equivalents

Cash and cash equivalents, as reported in the statement of cash flows, includes amounts in demand deposits, amounts with fiscal agents and investments with an original maturity at three months or less.

## F. Investments

Investments are reported at fair value and may include U.S. government and agency obligations, repurchase agreements and money market funds, including investment in a local government investment pool, interest rate management agreements and other investments as permitted by the laws of the State of Georgia, the Official Code of Georgia (OCGA). Unrealized gains and losses are included in the statement of revenues, expenses, and changes in net position. The Authority has adopted an interest rate management plan meeting the requirements of OCGA §36-82-250 and approved the parameters within which interest rate swap agreements may be executed.

The Authority measures and records its investments using fair value measurement guidelines established by generally accepted accounting principles. These guidelines recognize a three-tiered fair value hierarchy, as follows:

- Level 1: Quoted prices for identical investments in active markets
- Level 2: Observable inputs other than quoted market prices
- Level 3: Unobservable inputs

The Authority reports investments using net asset value (NAV) when NAV is calculated in a manner consistent with fair value measurement guidelines, fair value is not readily determinable, and it is not probable for the investment to be sold at an amount other than NAV.

#### G. Receivables and Revenue Recognition

The Authority bills its customers on a cyclical basis throughout the month based on meter readings taken during the previous month.

# 2. Summary of Significant Accounting Policies (continued)

#### G. Receivables and Revenue Recognition, continued

The Authority records receivables at the amount it expects to collect on balances due at the end of the year. Advance deposits are obtained from customers, but the Authority does not obtain collateral or other security for any of its trade accounts or other amounts receivable. Accordingly, it is exposed to credit losses in the event of nonperformance. Management closely monitors outstanding balances and writes off uncollectible amounts as of year-end in accordance with approved policies.

Billed accounts receivable represent charges for customer water and wastewater treatment usage billed to customers and not paid at August 31. Unbilled accounts receivable represent charges billed to customers after August 31 for services provided by the Authority prior to September 1.

Metered water and wastewater treatment sales and streetlight fees are based on rates established by the Authority Board.

#### H. Lease Receivable

The Authority lease receivable is measured at the present value of lease payments expected to be received during the lease term. Under the lease agreement, the Authority may receive variable lease payments that are dependent upon the lessee's revenue. The variable payments are recorded as an inflow of resources in the period the payment is received.

A deferred inflow of resources is recorded for the lease. The deferred inflow of resources is recorded at the initiation of the lease in an amount equal to the initial recording of the lease receivable. The deferred inflow of resources is amortized on a straight-line basis over the term of the lease.

#### I. Prepaid Expenses

Payments made to vendors for services that will benefit periods beyond the current fiscal year are recorded as prepaid expenses using the consumption method by recording an asset for the prepaid amount and reflecting the expense in the fiscal year in which services are consumed.

## 2. Summary of Significant Accounting Policies (continued)

#### J. Inventories

Inventories are stated at cost using specific identification.

#### K. Capital Assets

Capital assets include infrastructure acquired since 1959 and are stated at cost except for contributed water and sewer lines, which are recorded at acquisition value at the date they are accepted by the Authority. All acquisitions of property and equipment in excess of \$5,000 are capitalized and depreciated.

Expenses for maintenance and repairs not considered to substantially lengthen the property lives are charged to expense as incurred. The cost of incomplete construction and system improvement projects is reported as construction-in-progress and is not depreciated.

The Authority has recorded intangible right-to-use assets as a result of implementing GASB Statement No. 87, *Leases* and GASB Statement No. 96, *Subscription-Based Information Technology Arrangements*. The assets are initially measured at an amount equal to the initial measurement of the related lease or subscription liability plus any payments made prior to the lease or subscription term, less lease or subscription incentives, and plus ancillary charges necessary to place the lease or subscription into service. The intangible right-to-use assets are amortized on a straight-line basis over the shorter of the estimated useful life of the underlying asset or life of the related lease or subscription.

Depreciation and amortization of the water and sewer systems, machinery, equipment, furnishings, and intangible assets are computed using the straight-line method over the following estimated useful lives:

Asset Category	in Years
Structures and improvements	20-50
Machinery and equipment	5-20
Office furniture and equipment	5
Intangible right-to-use assets:	
Software	5

Useful Life

## 2. Summary of Significant Accounting Policies (continued)

#### L. Capitalization of Salaries

The Authority capitalizes salaries of employees in distribution and administration who perform construction activities. The amount capitalized is based upon the portion of the respective employees' work hours that is spent performing these functions.

#### <u>M. Restricted Assets</u>

Assets are reported as restricted when limitations on their use change the nature or normal understanding of the availability of the asset. Such constraints are either externally imposed by creditors, contributors, grantors, or laws of other governments, or are imposed by law through constitutional provisions or enabling legislation. Restricted assets also represent cash and cash equivalents and investments set aside for repayment of deposits to utility customers.

#### N. Compensated Absences

Full time employees are granted vacation benefits in varying amounts depending on tenure with the Authority. An expense and liability are recognized for accrued vacation leave as it is earned. Unused leave is lost if not taken each year. Sick leave accrues to full-time employees to a specified maximum but does not vest and is paid only for an absence for medical-related causes. Since such future absences cannot be reasonably predicted, no liability for unused sick pay is recorded.

#### O. Deferred Outflows/Inflows of Resources

In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net assets that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/ expenditure) until then. The Authority reports deferred outflows of resources for deferred charges on bond refunding, defined benefit pension plan, and other postemployment benefit plan. A deferred charge on refunding results from the difference in the carrying value of refunded debt and its reacquisition price. This amount is deferred and amortized over the shorter of the life of the refunded or refunding debt.

# 2. Summary of Significant Accounting Policies (continued)

## O. Deferred Outflows/Inflows of Resources, continued

In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net assets that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The Authority reports deferred inflows of resources related to their leases, defined benefit pension plan, and other postemployment benefit plan.

## P. Pension and OPEB Plans

For purposes of measuring the net pension liability (asset), net OPEB liability (asset), deferred outflows/inflows of resources related to pensions and OPEB, and pension and OPEB expense, information about the fiduciary net position of the Georgia Municipal Employees Benefit System (GMEBS) plans (Plans) and additions to/deductions from the Plans' fiduciary net position have been determined on the same basis as they are reported by GMEBS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

## Q. Amortization

Amortization of bond premiums and discounts is computed using the effective interest method over the life of the bond issue for which the charges have been deferred. Amortization of the deferred amount on refunding is computed using the straight-line method over the shorter of the remaining life of the defeased debt had it not been refunded, or the life of the new debt.

## 2. Summary of Significant Accounting Policies (continued)

#### R. Net Position

Net position represents the difference between assets plus deferred outflows of resources and liabilities plus deferred inflows of resources. Net investment in capital assets consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowing used for the acquisition, construction or improvement of those assets. Net position is reported as restricted when there are limitations imposed on its use either through the enabling legislation adopted by the Authority or through external restrictions imposed by creditors, grantors, or laws or regulations of other governments. All other components of net position are reported as unrestricted.

The Authority applies restricted resources when an expense is incurred for purposes for which both restricted and unrestricted assets are available.

### S. Capital Contributions

Federal, state and local government assistance in the form of grants that are permanent in nature and restricted for the construction or acquisition of specific property and equipment is recorded as an asset and as a capital contribution.

## T. Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from these estimates.

#### U. Operating Budget

The Authority is not legally required to adopt a budget. However, the staff of the Authority prepares an annual operating budget for management control purposes. The staff of the Authority uses the accrual basis of accounting in its annual operating budget, which is consistent with the basis of accounting used in the Authority's financial statements. The Authority's Board of Directors approves the budget and any changes made thereto.

## 2. Summary of Significant Accounting Policies (continued)

#### U. Operating Budget, continued

The Authority's budget for the current fiscal year is included in the supplementary information to the accompanying financial statements. This budget is based upon certain assumptions and estimates of the staff of the Authority regarding future events, transactions and circumstances. Realization of the results projected in this budget will depend upon implementation by management of the Authority of policies and procedures consistent with the assumptions. There can be no assurance that actual events will correspond with such assumptions, that uncontrollable factors will not affect such assumptions or that the projected results will be achieved. Accordingly, the actual results achieved could materially vary from those projected in the budget.

## 3. Deposit and Investment Risk

#### **Custodial Credit Risk – Deposits**

Custodial credit risk is the risk that in the event of a financial institution failure, the Authority's deposits may not be returned. The Authority's investment policy follows the State of Georgia requirement that all deposits be federally insured or fully collateralized. At the end of the current fiscal year, the Authority had no uninsured or uncollateralized deposits. These deposits are collateralized with securities not held in the Authority's name. These deposits are held by the pledging financial institution's agent, the Georgia Bankers Association, in the State of Georgia Pledging Pool. The State of Georgia Pledging Pool is collateralized by securities within the pool at 111% of deposits.

#### **Interest Rate Risk**

The Authority's investment policy limits investment maturities as a means of managing its exposure to fair values from increasing interest rates.

#### **Credit Risk**

State of Georgia law limits investments to include certificates of deposit, repurchase agreements, direct and agency obligations of the United States, obligations of the State of Georgia or other states, obligations of other political subdivisions of the State of Georgia, and pooled investment programs of the State of Georgia. The Authority has not adopted a formal credit risk policy.

## 3. Deposit and Investment Risk (continued)

#### **Concentration of Credit Risk**

The Authority's policy does not limit the amount the Authority may invest in any one issuer, but it does require that the Authority monitor the credit worthiness of each institution at least annually.

The Authority participates in the State of Georgia Local Government Investment Pool (Georgia Fund 1). Assets in this pool are invested in the Georgia Fund 1, created by OCGA §36-83-8, which is a stable net asset investment pool that follows Fitch's criteria for AAAf rated money market funds. However, Georgia Fund 1 operates in a manner consistent with Rule 2a-7 of the Investment Company Act of 1940 and is considered to be a 2a-7 like pool. The pool is not registered with the SEC as an investment company.

The pool's primary objectives are safety of capital, investment income, liquidity and diversification while maintaining principal (\$1.00 per share value). Net asset value is calculated weekly to ensure stability. The pool distributes earnings (net of management fees) on a monthly basis and determines participant's shares sold and redeemed based on \$1.00 per share. Georgia Fund 1 is managed by the Georgia Office of the State Treasurer. The investment policies of Georgia Fund 1 are established by the Georgia State Depository Board.

The Georgia Fund 1 is rated AAAf by Fitch. The weighted average maturity at the end of the current fiscal year was 22 days. At the end of the current fiscal year, the Authority's balance in Georgia Fund 1 was \$56,560,003.

#### **Foreign Currency Risk**

The Authority has no investments denominated in a foreign currency.

## 4. Accounts Receivable

Accounts receivable consists of \$4,107,703 billed and \$5,562,981 unbilled for a total receivable of \$9,670,684 at the end of the current fiscal year. All receivables are considered fully collectible. Therefore, no allowance for doubtful accounts has been established.

## 5. Lease Receivable

In 2013, the Authority entered into a five year lease with a cell phone service provider to provide the tenant the right to a portion of real property, together with the right to use the tower located thereon. The lease provides for four additional, five-year terms. Under the lease, the tenant paid the Authority a monthly payment of \$3,000 per month for the first 12 months of the lease. On the annual anniversary date of the commencement date, the monthly rent amount is increased by three percent of the rent paid in the previous year. The lease receivable is measured as the present value of the future minimum rent payments expected to be received during the lease term at an imputed discount rate of 4.87%. During the current fiscal year, the Authority recognized \$39,246 of lease revenue (reported as miscellaneous revenues on the statement of revenues, expenses, and changes in net position) and \$29,359 of interest revenue under the lease.

Annual requirements to maturity are as follows:

Fiscal Year Ending August 31,	I	Principal		Interest	Total
2025	\$	22,238	\$	28,342	\$ 50,580
2026		24,897		27,200	52,097
2027		27,735		25,925	53,660
2028		30,762		24,508	55,270
2029		33,989		22,939	56,928
2030-2034		226,197		85,109	311,306
2035-2038		226,070		20,625	 246,695
Totals	\$	591,888	\$	234,648	\$ 826,536

# 6. Capital Assets

Capital asset activity for the current fiscal year was as follows:

	Beginning Balance	Increases	Decreases	Ending Balance
Non-depreciable assets:				
Land and easements	\$ 14,038,912	2 \$ 1,041,278	\$ (13,992)	\$ 15,066,198
Construction in progress	51,643,484	6,650,995	(2,309,417)	55,985,062
Total non-depreciable assets	65,682,396	5 7,692,273	(2,323,409)	71,051,260
Depreciable/amortizable assets:				
Structures and improvements	699,486,823	3 21,770,259	(326,296)	720,930,786

and amortization	(252,490,283	3) (15,561,951)	342,677	(267,709,557)
Total depreciable/amortizable assets, net	466,204,650	8,838,078	(213,308)	474,829,420
Capital assets, net	\$ 531,887,046	§ 16,530,351	\$ (2,536,717)	\$ 545,880,680

Increases in software include modifications to existing subscriptions in the amount of \$37,123.

# 7. Long-Term Debt

#### Subscription Liabilities

The Authority has entered into subscription-based information technology arrangements (SBITAs) with vendors for software. As a result of the subscriptions, the Authority has recorded intangible right-to-use assets of \$644,337, with related accumulated amortization of \$213,563, at the end of the current fiscal year. Amortization on the assets totaled \$190,408 for the current fiscal year. Subscription liabilities are comprised of the following individual subscriptions at the end of the current fiscal year:

- \$48,868 software subscription due in monthly installments of \$1,138 through August 2026, imputed interest at 2.680%, \$26,564 outstanding
- \$90,006 software subscription due in monthly installments of \$2,599 through August 2026, imputed interest at 2.680%, modified in September 2023, \$60,668 outstanding
- \$163,208 software subscription due in annual installments of \$56,700 through September 2025, imputed interest at 3.180%, \$108,138 outstanding
- \$204,878 software subscription due in annual installments of \$70,900 through September 2025, imputed interest at 3.019%, \$135,545 outstanding
- \$62,387 software subscription due in quarterly installments of \$8,071 through September 2025, imputed interest at 3.316%, \$31,623 outstanding
- \$60,968 software subscription due in annual installments of \$20,560 with annual 3% escalation through August 2027, imputed interest at 2.993%, \$60,968 outstanding

The following is a schedule of the future minimum subscription payments together with the present value of the net minimum subscription payments at the end of the current fiscal year:

Fiscal Year Ending August 31,	F	Principal	I	nterest	Total
2025	\$	214,485	\$	10,802	\$ 225,287
2026		187,851		5,770	193,621
2027		21,170		642	 21,812
Totals	\$	423,506	\$	17,214	\$ 440,720

## 7. Long-Term Debt (continued)

#### Revenue Bonds

Revenue bonds issued are comprised of the following individual issues at the end of the current fiscal year:

In December 1993, the Authority issued \$28,460,000 in Water and Sewerage Revenue Bonds, Refunding and Improvements Series 1993 maturing in 2023 with interest rates from 5.30% to 5.50%, to advance refund all of the Series 1991 revenue bonds in the principal amount of \$10,000,000 and to provide funds to make certain additions and improvements to the water and sewerage systems. The bonds are secured by a pledge and lien on net system revenues. Upon the happening and continuance of an event of default, the holders of not less than a majority in principal amount of the bonds then outstanding may declare the principal of all bonds outstanding to be due and payable immediately.

In December 1995, the Authority issued \$22,460,000 in Water and Sewerage Revenue Bonds Series 1995, maturing in 2025 with an interest rate of 5.20%, to provide funds to make certain additions and improvements to the water and sewerage systems. The bonds are secured by a pledge and lien on net system revenues. Upon the happening and continuance of an event of default, the holders of not less than a majority in principal amount of the bonds then outstanding may declare the principal of all bonds outstanding to be due and payable immediately. A portion of this series was refunded by the Series 2001 revenue bonds.

In May 2001, the Authority issued \$70,505,000 in Refunding and Improvement Revenue Bonds Series 2001, maturing in 2030 with interest rates ranging from 3.25% to 5.125%, to advance refund portions of the Series 1991, 1995, 1997, and 1998 revenue bonds in the principal amount of \$38,765,000, to pay a surety bond premium to fund the bond Debt Service Reserve, and to provide funds to make certain additions, extensions, and improvements to the water and sewerage systems. The bonds are secured by a pledge and lien on net system revenues. Upon the happening and continuance of an event of default, the holders of not less than a majority in principal amount of the bonds then outstanding may declare the principal of all bonds outstanding to be due and payable immediately. Portions of this series were refunded by the Series 2010 and Series 2011 revenue refunding bonds, and were called and redeemed in 2011.

# 7. Long-Term Debt (continued)

#### **Revenue Bonds (continued)**

In May 2006, the Authority issued \$25,000,000 in Revenue Bonds Series 2006 as auction rate securities maturing in 2035. The bonds were issued to provide funds to make certain additions, extensions, and improvements to the water and sewerage systems. These bonds were remarketed in April 2008 in order to convert their interest rates to long-term fixed rates that range from 3.00% to 5.00%. The bonds are secured by a pledge and lien on net system revenues. Upon the happening and continuance of an event of default, the holders of not less than a majority in principal amount of the bonds then outstanding may declare the principal of all bonds outstanding to be due and payable immediately. In 2016, \$18,880,000 of the outstanding bonds were refunded by the Series 2016 Revenue Refunding Bonds.

In June 2007, the Authority issued \$25,000,000 in Revenue Bonds Series 2007 as auction rate securities maturing in 2035. The bonds were issued to provide funds to make certain additions, extensions, and improvements to the water and sewerage systems. These bonds were remarketed in April 2008 in order to convert their interest rates to long-term fixed rates that range from 3.00% to 5.00%. The bonds are secured by a pledge and lien on net system revenues. Upon the happening and continuance of an event of default, the holders of not less than a majority in principal amount of the bonds then outstanding may declare the principal of all bonds outstanding to be due and payable immediately. In 2016, \$18,880,000 of the outstanding bonds were refunded by the Series 2016 Revenue Refunding Bonds.

In April 2008, because of significant disruptions to the auction rate securities market, the Authority converted the interest rates on the Series 2006 and 2007 bonds from auction rates to long-term fixed rates. The Authority paid \$456,157 in remarketing fees and other costs in connection with the conversion and remarketing of the bonds. All were successfully remarketed in April 2008, resulting in a premium of \$268,023.

## 7. Long-Term Debt (continued)

#### **Revenue Bonds (continued)**

In January 2010, the Authority issued \$39,710,000 in Water and Sewerage Revenue Refunding Bonds, Series 2010, maturing in 2028 with interest rates ranging from 3.00% to 5.00%. The bonds were issued by the Authority for the purpose of advance refunding the Authority's remaining Series 1997 and 1998 revenue bonds and a portion of the Series 2001 revenue bonds in the aggregate principal amount of \$39,645,000. The bonds are secured by a pledge and lien on net system revenues. Upon the happening and continuance of an event of default, the holders of not less than a majority in principal amount of the bonds then outstanding may declare the principal of all bonds outstanding to be due and payable immediately. In 2020, \$27,685,000 of the outstanding bonds were refunded by the Series 2020 Revenue Refunding Bonds.

In June 2011, the Authority issued \$29,310,000 in Water and Sewerage Revenue Refunding Bonds, Series 2011, maturing in 2030 with interest rates ranging from 3.00% to 5.00%. The bonds were issued by the Authority for the purpose of advance refunding the Authority's Series 2001 revenue bonds and a portion of the Series 2003 revenue bonds in the aggregate principal amount of \$30,355,000. The bonds are secured by a pledge and lien on net system revenues. Upon the happening and continuance of an event of default, the holders of not less than a majority in principal amount of the bonds then outstanding may declare the principal of all bonds outstanding to be due and payable immediately. In 2020, \$4,230,000 of the outstanding bonds were refunded by the Series 2020 Revenue Refunding Bonds.

In May 2013, the Authority issued \$16,260,000 in Water and Sewerage Revenue Refunding Bonds, Series 2013, maturing in 2033 with interest rates ranging from 3.25% to 5.00%. The bonds were issued by the Authority for the purpose of advance refunding a portion of the Authority's Series 2003 revenue bonds in the aggregate principal amount of \$18,970,000. The bonds are secured by a pledge and lien on net system revenues. Upon the happening and continuance of an event of default, the holders of not less than a majority in principal amount of the bonds then outstanding may declare the principal of all bonds outstanding to be due and payable immediately. In 2023, \$15,235,000 of the outstanding bonds were refunded by the Series 2023 Revenue Bonds.

# 7. Long-Term Debt (continued)

#### **Revenue Bonds (continued)**

In February 2016, the Authority issued \$32,980,000 in Water and Sewerage Revenue Refunding Bonds, Series 2016, maturing in 2035 at 5.00% interest. The bonds were issued by the Authority for the purpose of advance refunding a portion of each of the Authority's Series 2006 and 2007 revenue bonds in the aggregate principal amount of \$37,760,000. The cash flows required to service the Series 2020 bonds are approximately \$6.5 million less than those for the refunded bonds providing an economic gain from the refunding of approximately \$5.4 million. The Authority paid \$413,838 in underwriting fees and other issuance costs in connection with the refunding. The bonds are secured by a pledge and lien on net system revenues. Upon the happening and continuance of an event of default, the holders of not less than a majority in principal amount of the bonds then outstanding may declare the principal of all bonds outstanding to be due and payable immediately.

In June 2020, the Authority issued \$26,600,000 in Water and Sewerage Revenue Refunding Bonds, Series 2020A and Series 2020B, maturing in 2030 at interest rates ranging between 1.13% and 5.00%. The bonds were issued by the Authority for the purpose of advance refunding a portion of each of the Authority's Series 2010 and 2011 revenue bonds in the aggregate principal amount of \$31,915,000. The cash flows required to service the Series 2020 bonds are approximately \$6.7 million less than those for the refunded bonds providing an economic gain from the refunding of approximately \$6.4 million. The Authority paid \$417,471 in underwriting fees and other issuance costs in connection with the refunding. The bonds are secured by a pledge and lien on net system revenues. Upon the happening and continuance of an event of default, the holders of not less than a majority in principal amount of the bonds then outstanding may declare the principal of all bonds outstanding to be due and payable immediately.

## 7. Long-Term Debt (continued)

#### **Revenue Bonds (continued)**

In May 2023, the Authority issued \$96,525,000 in Water and Sewerage Revenue Bonds, Series 2023, maturing in 2053 at interest rates ranging between 4.00% and 5.00%. The bonds were issued by the Authority to provided funds to pay or to be applied toward the cost of adding to, extending, improving and equipping the Authority's water and sewerage system, refunding all or a portion of the Authority's Series 2013 revenue refunding bonds in the principal amount of \$15,235,000, and paying costs of issuance. The cash flows required to service the Series 2023 bonds are approximately \$1,927,028 less than those for the refunded bonds providing an economic gain from the refunding of approximately \$1,579,399. The Authority paid \$1,131,099 in underwriting fees and other issuance costs in connection with the refunding. The bonds are secured by a pledge and lien on net system revenues. Upon the happening and continuance of an event of default, the holders of not less than a majority in principal amount of the bonds then outstanding may declare the principal of all bonds outstanding to be due and payable immediately.

The U.S. government securities purchased in connection with the defeased and advance refunded bonds are deposited in irrevocable trusts with escrow agents to provide for all future debt service payments of the affected bonds. As a result, the bonds are considered to be defeased and the liabilities for them have been removed from long-term debt. At the end of the current fiscal year, no outstanding principal balances remain.

The defeasance, advance refundings, and remarketing of the bonds described above resulted in differences between the reacquisition prices and the net carrying amounts of the old debt. The deferred amounts on refunding, reported in the accompanying financial statements as deferred outflows of resources and deferred inflows of resources, are being charged to operations using the straight-line method of amortization. The amounts remaining at the end of the current fiscal are deferred outflows of resources of \$3,052,226 and deferred inflows of resources of \$964,174.

# 7. Long-Term Debt (continued)

### **Revenue Bonds (continued)**

The revenue bonds are secured by a pledge of the revenues derived by the Authority from the ownership and operation of the water and sewerage systems remaining after payment of the reasonable and necessary expenses of operating, maintaining, and repairing the systems (net system revenues). Payment of the principal of and interest on the revenue bonds, when due, is guaranteed by municipal bond insurance policies issued by Financial Guaranty Insurance Company and Assured Guaranty Municipal Corp. (formerly known as Financial Security Assurance, Inc.).

The Authority makes sinking fund deposits monthly for all issues. Annual totals are at least equal to the principal installments of and interest payable on the bonds in the current sinking fund year.

Fiscal Year Ending			
August 31,	Principal	Interest	Total
2025	\$ 9,550,000	\$ 7,110,290	\$ 16,660,290
2026	11,480,000	6,631,398	18,111,398
2027	12,055,000	6,067,318	18,122,318
2028	12,630,000	5,485,493	18,115,493
2029	5,315,000	4,873,800	10,188,800
2030-2034	27,890,000	20,271,653	48,161,653
2035-2039	15,280,000	14,397,813	29,677,813
2040-2044	15,945,000	10,806,063	26,751,063
2045-2049	20,030,000	6,731,063	26,761,063
2050-2053	19,420,000	1,980,000	21,400,000
Totals	\$ 149,595,000	\$ 84,354,891	\$ 233,949,891

Annual debt service requirements for bonds payable are as follows:

The various resolutions providing for the revenue bonds require that the Authority establish and maintain a schedule of rates, fees, and charges for services furnished by the systems to produce in each sinking fund year ("net system revenues") in an amount at least equal to 1.20 times the highest annual amount of principal and interest payable on the bonds during any future sinking fund year. The revenue bond coverage was 2.47 for the current fiscal year.

# 7. Long-Term Debt (continued)

### **Revenue Bonds (continued)**

Effective with the issuance of the Series 2001 bonds, the Authority's annual net system revenues, exclusive of water connection and sewer tap fees, must be no less than the highest annual amount of debt service payable during any future sinking fund year. For the current fiscal year, this ratio was 1.67.

The Authority is also required to maintain a reserve account in an amount equal to the lessor of a three-prong test in the Authority's Bond Resolution: 10% of the principal amount of the Authority's outstanding bonds; the Authority's maximum annual debt service; or 125% of the Authority's average annual debt service. Currently, the debt service reserve requirement is 125% of the Authority's average annual debt service, or \$9,829,827. The Authority satisfies the debt service reserve requirement using surety bonds. At the end of the current fiscal year, the surety bonds exceed the debt service requirement.

## 8. Long-Term Liabilities

#### Changes in Long-Term Liabilities

The following is a summary of changes in long-term liabilities of the Authority for the current fiscal year:

	 Beginning Balance	 Additions	 Deductions	 Ending Balance	 Due Within One Year
Revenue bonds	\$ 158,685,000	\$ 0	\$ (9,090,000)	\$ 149,595,000	\$ 9,550,000
Unamortized bond discounts	(9,666)	0	6,391	(3,275)	(3,275)
Unamortized bond premiums	 15,525,371	 0	 (1,864,621)	 13,660,750	 1,812,210
Revenue bonds, net	174,200,705	0	(10,948,230)	163,252,475	11,358,935
Subscription liabilities	459,594	160,479	(196,567)	423,506	214,485
Compensated absences	1,413,437	1,324,647	 (1,272,093)	 1,465,991	 1,319,392
	\$ 176,073,736	\$ 1,485,126	\$ (12,416,890)	\$ 165,141,972	\$ 12,892,812

Additions to subscription liabilities include modifications to existing subscriptions in the amount of \$37,123. Amortization of bond discounts and premiums is computed using the effective interest method over the life of the bond issue for which the charges have been deferred. The total interest incurred and charged to expense for the current fiscal year was \$7,653,422.

## 9. Investment Derivative Financial Instruments

The Authority entered into two debt service forward delivery agreements with Lehman Brothers Special Financing, Inc. (Lehman), which were assigned in March 2017 to CRC Bond Opportunity Trading Fund LP (CRC BOTF). Under these contracts, CRC BOTF has the option to require the Authority to use revenue bond sinking funds to purchase qualified U.S. Treasury securities that will mature by the semi-annual debt service payment dates from a Qualified Dealer (as defined in the agreements) chosen by CRC BOTF.

In exchange for these agreements, Lehman paid the Authority \$958,600, which represented the present value of the expected interest earnings in the sinking fund over the life of the related revenue bonds. The remaining balance of this unearned revenue is \$3,394 at the end of the current fiscal year and is being recognized on the straight-line basis over the life of each respective agreement.

The forward delivery agreements relate to the following bond series:

Dealer	Series	Cas	h Payment
Lehman	1993 Refunding & Improvement Bonds	\$	740,600
Lehman	1995 Revenue Bonds		218,000

The agreement related to the Series 1993 ended as the remaining principal balance of the Series 1993 bonds was paid in full during the prior fiscal year.

As the investments purchased by the Authority are U.S. Treasury securities and are held in the Authority's revenue bond sinking fund, there is no significant credit risk. Interest rate risk is limited to the effect of a change in rate on the value of the investments from the time of purchase through the next scheduled debt service payment date, which can be no more than one year.

The Authority entered into these agreements to obtain a higher long-term than short-term yield and not for the purpose of hedging any financial risk. Accordingly, these forward delivery arrangements are investment derivative financial instruments and classified as other noncurrent liabilities in the statement of net position. The gains or losses are reported as other revenues or expenses, respectively, on the statement of revenues, expenses, and changes in net position.

## 9. Investment Derivative Financial Instruments (continued)

The fair value balance and notional amount of debt service forward delivery agreements outstanding at the end of the current fiscal year and the corresponding changes in fair value of such derivative instruments for the fiscal year then ended were as follows:

Change in F	air Value	Fair Value			
Classification	Amount	Classification	Amount	Notional	
Change in fair value of derivative	\$ 171,003	Other noncurrent liability	\$ (149,010)	\$ 6,162,006	

## 10. Restricted Net Position

Net position restricted for OPEB includes the assets held for payment of post-employment benefits other pensions. Net position restricted for debt service includes the excess of assets restricted for debt service on revenue bonds over the related liabilities. Net position restricted for bond retirement represents assets set aside for that purpose as required by the revenue bond resolutions (see Note 7).

## 11. Net Investment in Capital Assets

The net investment in capital assets reported on the statement of net position is calculated as follows at the end of the current fiscal year:

Cost of capital assets Accumulated depreciation/amortization	\$ 813,590,237 (267,709,557)
Book value Construction accounts and retainage payable Other capital-related accounts payable Subscription liabilities Revenue bonds payable Net deferred amounts on refunding Unspent bond proceeds	 545,880,680 (1,074,369) (158,941) (423,506) (163,252,475) 2,088,052 42,033,074
Net investment in capital assets	\$ 425,092,515

## 12. Retirement Plans

### **Defined Benefit Pension Plan**

*Plan Description.* The Authority has established the Cherokee County Water and Sewerage Authority Retirement Plan (the Plan) and participates in the Georgia Municipal Employees Benefit System (GMEBS) to provide certain retirement and death benefits to Plan members and beneficiaries. Only the Authority may amend the benefit provisions of the Plan. GMEBS is an agent multiple-employer, statewide public employee pension plan established by the Georgia legislature and administered by a board of trustees. GMEBS issues a publicly available financial report that may be obtained by contacting the administrator, Georgia Municipal Association (GMA), The Burgess Building, 201 Pryor Street, SW, Atlanta, Georgia 30303.

All qualified employees are eligible to participate in the Plan with no waiting period. Officials are not covered by the Plan. Benefits vested at 100% after five years of service. Participants become eligible for early retirement with 10 years of service and attainment of age 55. Participants become eligible for normal retirement with 5 years of service and attainment of age 65. Participants also become eligible for normal retirement with combined service and age equal to at least 80, if still employed (the Rule of 80).

Current membership is as follows:

Retired participants and beneficiaries currently receiving benefits	60
Vested terminated participants entitled to but not yet receiving benefits	33
Active participants	203
Total number of participants	296

## 12. Retirement Plans (continued)

### Defined Benefit Pension Plan, continued

*Benefits Provided.* Upon eligibility for retirement at normal retirement age, the following benefit formula applies: 2.0% x Years of Credited Service (30 maximum) x Final Average Earnings (Annual average of 5 consecutive years preceding the most recent termination in which participant's earnings were the highest). Upon eligibility for retirement at early retirement age, the benefit formula above is reduced ranging from 93.3% to 50.0%. The Plan also provides benefits in the event of death before retirement and early retirement subject to certain early retirement reduction factors.

*Contributions*. Authority employees are not required to contribute to the Plan. The Authority is required to contribute amounts at least equal to the actuarially determined rate established by the GMEBS board of trustees. The Plan is also subject to the minimum funding standards of the OCGA, which will be met by the amount developed under the GMEBS actuarial funding policy. The actuarially determined rate is the estimated amount necessary to finance the cost of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability. The Authority's contributions totaled \$2,763,940, or 16.28% of covered payroll, for the current fiscal year. The Authority's board of directors provides for the benefits and funding policy through Authority resolution and maintains the authority to change the policy.

Pension Liability, Pension Expense, Deferred Outflows of Resources, and Deferred Inflows of Resources Related to Pensions. At the end of the current fiscal year, the Authority reported a net pension liability of \$16,843,556. The net pension liability was measured as of September 30, 2023, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of January 1, 2024. For the current fiscal year, the Authority recognized pension expense of \$4,296,625.

# 12. Retirement Plans (continued)

## Defined Benefit Pension Plan, continued

The components of the net pension liability are as follows:

	Total Pension Liability (a)	Plan Fiduciary Net Position (b)	Net Pension Liability (a)-(b)
Balances at September 30, 2022	\$ 46,418,221	\$ 29,369,314	\$ 17,048,907
Changes for the year:			
Service cost	639,572	0	639,572
Interest	3,406,770	0	3,406,770
Differences between expected and			
actual experience	2,559,673	0	2,559,673
Contributions - employer	0	2,874,507	(2,874,507)
Net investment income (loss)	0	3,982,025	(3,982,025)
Benefit payments, including refunds of			
employee contributions	(1,728,608)	(1,728,608)	0
Administrative expense	0	(45,166)	45,166
Net changes	4,877,407	5,082,758	(205,351)
Balances at September 30, 2023	\$ 51,295,628	\$ 34,452,072	\$ 16,843,556
Plan fiduciary net position as a percentage of the tota	67.16%		
Covered payroll		\$ 14,177,734	
Net pension liability as a percentage of covered payro	oll	118.80%	

At the end of the current fiscal year, the Authority reported deferred outflows of resources and deferred inflows of resources related to the Plan from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Authority contributions subsequent to the measurement date	\$ 2,533,612	\$ 0
Differences between expected and actual experience	4,285,466	0
Changes of assumptions	1,326,328	0
Net difference between projected and actual earnings		
on pension plan investments	1,623,053	0
Totals	\$ 9,768,459	<u>\$0</u>

## 12. Retirement Plans (continued)

#### Defined Benefit Pension Plan, continued

The \$2,533,612 of deferred outflows of resources resulting from the Authority's contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the subsequent fiscal year. Other amounts reported as deferred outflows and deferred inflows of resources will be recognized in pension expense as follows:

Fiscal Year Ending August 31	
2025	\$ 2,104,729
2026	2,219,426
2027	2,302,552
2028	181,528
2029	 426,612
Totals	\$ 7,234,847

Actuarial Assumptions. The total pension liability in the January 1, 2024 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	2.25%
Future salary increases	2.25% plus service based merit increases
Cost of living adjustments	N/A
Net investment rate of return	7.375%

Healthy mortality rates were based on the sex-distinct Pri-2012 head-count weighted Healthy Retiree Mortality Table with rates multiplied by 1.25. Disabled mortality rates were based on the sex-distinct Pri-2012 head-count weighted Disabled Retiree Mortality Table with rates multiplied by 1.25.

The methods and assumptions used in the January 1, 2024 valuation were based on the results of an actuarial experience study for the period of January 1, 2015 through June 30, 2019 conducted in November and December 2019.

## 12. Retirement Plans (continued)

### Defined Benefit Pension Plan, continued

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The difference between the resulting rate and the rate on the ongoing basis is a margin for adverse deviation.

Best estimates of arithmetic real rates of return for each major asset class included in the pension plan's target asset allocation as of March 31, 2023 are summarized in the following table:

	Target	Long-Term Expected Real
Asset Class	Allocation	Rate of Return
Domestic equity	45%	6.91%
International equity	20%	7.21%
Domestic fixed income	20%	1.61%
Real estate	10%	3.61%
Global fixed income	5%	1.67%
Cash	0%	
Total	100%	

*Discount Rate.* The discount rate used to measure the total pension liability was 7.375 percent. The projection of cash flows used to determine the discount rate assumed that contributions from employer will be made at contractually required rates, actuarially determined. Based on those assumptions, the Plan's fiduciary net position was projected to be available to make all projected future benefit payments of current active and inactive employees. Therefore, the long-term expected rate of return on Plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

## 12. Retirement Plans (continued)

### Defined Benefit Pension Plan, continued

Sensitivity of the Net Pension Liability to Changes in the Discount Rate. The following presents what the net pension liability would be if it were calculated using a discount rate that is one percentage-point lower (6.375 percent) or one percentage-point higher (8.375 percent) than the current rate:

	Discount	Net Pension
	Rate	Liability
1% decrease	6.375%	\$ 23,147,332
Current discount rate	7.375%	16,843,556
1% increase	8.375%	11,527,351

*Plan Fiduciary Net Position.* Detailed information about the Plan's fiduciary net position is available in the separately issued Georgia Municipal Employees Benefit System financial report.

#### **Deferred Compensation Plan**

The Authority provides a governmental deferred compensation Section 457 plan (the 457 Plan) authorized by the Authority Board, which covers all employees. The 457 Plan is administered by the Variable Annuity Life Insurance Company. It does not allow for employer contributions. These defined contribution retirement benefits are dependent on employee contributions and investment earnings on those contributions. Participants self-direct the investment of their contributions. Any expenses incurred in conjunction with their investments are paid by the participants. Amounts employees defer under the 457 Plan are immediately vested and subject to statutory limits. Employee deferrals totaled \$402,159 for the current fiscal year.

## 13. Postemployment Benefits Other Than Pensions

*Plan Description.* The Cherokee County Water and Sewerage Authority Other Postemployment Benefits Plan (the OPEB Plan) is an agent multiple-employer defined benefit medical and prescription drug plan. The OPEB Plan is administered through the Georgia Municipal Employees Benefit System (GMEBS), an agent-multiple employer OPEB Plan administered by the Georgia Municipal Association (GMA). The benefit levels, employee contributions, and employer contributions are governed by the Authority and can be amended by the Authority. The Authority participates in the GMEBS OPEB Trust, an irrevocable trust established for the purpose of accumulating assets to fund postemployment benefits other than pensions. The GMEBS OPEB Trust issues separate financial statements that may be obtained by contacting the administrator, Georgia Municipal Association (GMA), The Burgess Building, 201 Pryor Street, SW, Atlanta, Georgia 30303.

At July 1, 2023, there were 229 participants consisting of the following:

Retired members or beneficiaries currently receiving benefits	30
Vested terminated members entitled to but not yet receiving benefits	0
Active members	199
Total number of participants	229

*Benefits Provided.* The Authority provides post-retirement health insurance benefits to all employees who retire after meeting age and tenure conditions and who do not have other coverage. Eligible retirees must meet the Rule of 80 (as described in the defined benefit pension plan note disclosure) regarding their combined age and years of service and have a minimum of 15 continuous years of service with the Authority. Employees must also meet other eligibility criteria as specified by the terms of the Plan. The retiree's spouse and dependent(s) may also receive coverage under certain circumstances. Retirees will pay 20% of the cost of their own coverage and 60% of spouse and dependent coverage. For retirees who qualify, the benefits are coordinated with Medicare.

Current Authority retirees who qualify for health benefits receive an implicit rate subsidy by participating in the active employee health care risk pool.

## 13. Postemployment Benefits Other Than Pensions (continued)

*Contributions.* The Authority has elected to advance fund the OPEB Plan. The Authority's contributions totaled \$182,195, or 1.07% of covered payroll, for the current fiscal year. The Authority's board of directors provides for the benefits and funding policy through Authority resolution and maintains the authority to change the policy. The GMA issues a publicly available financial report that includes financial statements and required supplementary information for GMEBS.

OPEB Liability (Asset), OPEB Expense, Deferred Outflows of Resources, and Deferred Inflows of Resources Related to OPEB. At the end of the current fiscal year, the Authority reported a net OPEB asset of \$1,196,999. The net OPEB asset was measured as of August 31, 2023, and the total OPEB liability used to calculate the net OPEB asset was determined by an actuarial valuation using data as of July 1, 2023. For the current fiscal year, the Authority recognized OPEB benefit of \$139,785.

The components of the net OPEB liability (asset) are as follows:

	Total OPEB Liability (a)	Plan Fiduciary Net Position (b)	Net OPEB Liability (Asset) (a)-(b)
Balances at August 31, 2022	\$ 10,109,918	\$14,325,226	\$ (4,215,308)
Changes for the year:			
Service cost	179,983	0	179,983
Interest	755,165	0	755,165
Differences between expected and actual experience	389,616	0	389,616
Changes of assumptions	3,078,592	0	3,078,592
Contributions-employer	0	162,970	(162,970)
Net investment income (loss)	0	1,275,656	(1,275,656)
Benefit payments, including refunds of member contributions	(102,580)	(102,580)	0
Administrative expense	0	(53,579)	53,579
Net changes	4,300,776	1,282,467	3,018,309
Balances at August 31, 2023	\$ 14,410,694	\$15,607,693	\$ (1,196,999)
Plan fiduciary net position as a percentage of the total OPEB liab Covered payroll Plan net OPEB liability (asset) as a percentage of covered payro	108.31% \$ 13,070,458 -9.16%		

# 13. Postemployment Benefits Other Than Pensions (continued)

At the end of the current fiscal year, the Authority reported deferred outflows of resources and deferred inflows of resources related to the OPEB Plan from the following sources:

	0	Deferred utflows of Resources	Deferred Inflows of Resources		
Authority contributions subsequent to the measurement date	\$	182,195	\$ 0		
Differences between expected and actual experience		742,394	(88,402)		
Changes of assumptions		2,894,298	(3,571,286)		
Net difference between projected and actual earnings					
on OPEB plan investments		644,464	 0		
Totals	\$	4,463,351	\$ (3,659,688)		

The \$182,195 of deferred outflows of resources resulting from the Authority's contributions subsequent to the measurement date will be recognized as a reduction of the net OPEB liability in the subsequent fiscal year. Other amounts reported as deferred outflows and deferred inflows of resources will be recognized in OPEB expense as follows:

Fiscal Year Ending August 31	
2025	\$ (169,076)
2026	(21,775)
2027	432,620
2028	(272,921)
2029	(214,206)
Thereafter	866,826
Totals	\$ 621,468

# 13. Postemployment Benefits Other Than Pensions (continued)

Actuarial Assumptions. The total OPEB liability in the July 1, 2023 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement, unless otherwise specified:

Inflation	2.25%					
Projected salary increases	3.00% to 8.50%, including inflation					
Actuarial cost method	Entry age level percent of pay					
Discount rate	7.375%					
Healthcare cost trend rates	Medical: 9.00% for the 2024 plan year, then 7.25%					
	trended down to 4.50% over 11 years					
Healthy mortality rates	Sex-distinct Pri-2012 head-count weighted Healthy					
	Retiree Mortality Table with rates multiplied by 1.25					
Disabled mortality rates	Sex-distinct Pri-2012 head-count weighted Disabled					
	Retiree Mortality Table with rates multiplied by 1.25					
Amortization method	Closed 20 years, level dollar					
Remaining amortization period	15 years					
Asset valuation method	Market value					

The actuarial demographic assumptions used in the August 31, 2023 valuation were based on the results of an actuarial experience study for the period of January 1, 2015 to July 1, 2019.

Development of Long-Term Rate. The long-term expected rate of return on OPEB plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation.

# 13. Postemployment Benefits Other Than Pensions (continued)

The target allocation and projected arithmetic real rates of return for each major asset class, after deducting inflation, used in the derivation of the long-term expected investment rate of return assumption are summarized in the following table:

Asset Class	Target Allocation	Long-Term Expected Real Rate of Return
Domestic equity	45%	6.91%
International equity	20%	7.21%
Domestic fixed income	20%	1.61%
Real estate	10%	3.61%
Global fixed income	5%	3.71%
Total	100%	

*Discount Rate.* The discount rate used to measure the total OPEB liability was 7.375%. The projection of cash flows used to determine the discount rate assume that Authority contributions will be made at rates equal to the actuarially determined contribution rates. Based on those assumptions, the OPEB plan's fiduciary net position was projected to cover all projected benefit payments of current plan members.

Sensitivity of the Net OPEB Liability to Changes in the Discount Rate. The following presents what the net OPEB liability would be if it were calculated using a discount rate that is one percentage-point lower (6.375%) or one percentage-point higher (8.375%) than the current rate. Also shown is the net OPEB liability as if it were calculated using healthcare cost trend rates that were one percentage-point lower or one percentage-point higher than the current healthcare trend rates:

	Net OPEB
	Liability (Asset)
6.375%	\$ 1,082,407
7.375%	(1,196,999)
8.375%	(3,051,483)
	Net OPEB
	Net OPEB Liability (Asset)
	Liability (Asset)
	7.375%

# 13. Postemployment Benefits Other Than Pensions (continued)

*OPEB Plan Fiduciary Net Position.* Detailed information about the Plan's fiduciary net position is available in the separately issued Georgia Municipal Employees Benefit System financial report.

## 14. Risk Management

The Authority is exposed to various risks of loss related to torts; theft of, damage to and destruction of assets; workers compensation; employee health care; errors and omissions; and natural disasters. The Authority has elected to manage its risk financing activities through the purchase of commercial insurance.

There have been no significant reductions in coverage from the prior year and there have been no insurance settlements exceeding insurance coverage for any of the past three fiscal years.

Management estimates liabilities for unpaid claims based on the probability of losses exceeding the occurrence limits and the reasonableness of estimating those losses. At the end of the current fiscal year, the Authority has no losses that are probable or estimable and, accordingly, has not recognized any liability.

## 15. Commitments and Contingencies

#### **Commitments**

At the end of the current fiscal year, the Authority has outstanding agreements with contractors for future work on existing construction projects in the approximate amount of \$11,420,741.

#### **Contingencies**

The Authority's legal counsel has stated there are presently no determinable lawsuits.

## 16. Operations

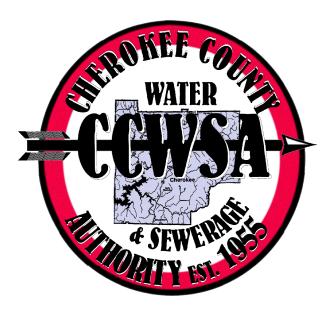

The Authority produced approximately 99.8% of its customers' water needs during the current fiscal year, purchasing most of the remaining amount from the City of Waleska, Georgia and Pickens County, Georgia. The Authority provided 93.7% of sewage treatment required during the current fiscal year, purchasing the remainder primarily from the City of Canton, Georgia, Cobb County Water System, and Fulton County, Georgia.

## 17. New Accounting Pronouncements

The Authority implemented GASB Statement No. 100, *Accounting Changes and Error Corrections*, effective for the Authority's current fiscal year. The requirements of this statement are effective for periods beginning after June 15, 2023. This statement had no effect on net position of the Authority.

This page intentionally left blank.

Contributions as a percentage of covered payroll	10.07%	5.13%	3.76%	3.61%	2.87%	1.16%	1.07%	

Note: Fiscal year 2018 was the first year of implementation. Therefore, fiscal years prior are not reported.

#### CHEROKEE COUNTY WATER AND SEWERAGE AUTHORITY NOTES TO THE REQUIRED SUPPLEMENTARY INFORMATION August 31, 2024

## **Pension Plan**

## 1. Valuation Date

The actuarially determined contribution was determined as of January 1, 2024, with an interest adjustment to the fiscal year. Contributions in relation to this actuarially determined contribution will be reported for the fiscal year ending August 31, 2025.

# 2. Methods and Assumptions Used to Determine Contribution Rates

Actuarial cost method = Projected unit credit

Amortization method = Closed level dollar for remaining unfunded liability

Remaining amortization period = Remaining amortization period varies for the bases, with a net effective amortization period of 10 years

Asset valuation method = Sum of actuarial value at beginning of year and the cash flow during the year plus the assumed investment return, adjusted by 10% of the amount that the value exceeds or is less than the market value at end of year. The actuarial value is adjusted, if necessary, to be within 20% of market value.

Net investment rate of return = 7.375%

Future salary increases = 2.25% plus service based merit increases

Cost of living adjustments = N/A

Retirement age for inactive vested participants = 65

Mortality = Healthy mortality rates were based on the sex-distinct Pri-2012 head-count weighted Healthy Retiree Mortality Table with rates multiplied by 1.25. Disabled mortality rates were based on the sex-distinct Pri-2012 head-count weighted Disabled Retiree Mortality Table with rates multiplied by 1.25.

#### CHEROKEE COUNTY WATER AND SEWERAGE AUTHORITY NOTES TO THE REQUIRED SUPPLEMENTARY INFORMATION August 31, 2024

## Pension Plan (continued)

## 3. Changes in Benefits

There were no changes in benefit provisions in the last two fiscal years.

## 4. Changes of Assumptions

There were no changes in assumptions in the last two fiscal years.

## **OPEB Plan**

## 1. Valuation Date

The results as of July 1, 2023 were based on the results for this plan in the actuarial valuation and review of postretirement welfare benefits as of July 1, 2023.

# 2. Methods and Assumptions Used to Determine Contribution Rates

Actuarial cost method = Entry age level percent of pay

Amortization method = Closed 20 years, level dollar

Remaining amortization period = 15 years

Asset valuation method = Market value

Projected salary increases = 3.00% to 8.50%, including inflation

Inflation = 2.25%

Discount rate = 7.375%.

Healthcare cost trend rates = Medical: 9.00% for the 2024 plan year, then 7.25% trended down to 4.50% over 11 years

#### CHEROKEE COUNTY WATER AND SEWERAGE AUTHORITY NOTES TO THE REQUIRED SUPPLEMENTARY INFORMATION August 31, 2024

# **OPEB Plan (continued)**

# 2. Methods and Assumptions Used to Determine Contribution Rates (continued)

Mortality = Healthy mortality rates were based on the sex-distinct Pri-2012 head-count weighted Healthy Retiree Mortality Table with rates multiplied by 1.25. Disabled mortality rates were based on the sex-distinct Pri-2012 head-count weighted Disabled Retiree Mortality Table with rates multiplied by 1.25.

## 3. Changes in Benefits

There were no changes in benefit provisions in the last two fiscal years.

## 4. Changes of Assumptions

Healthcare claims cost and trend rates were updated to reflect recent experience.

Retiree contributions were updated to reflect recent experience.

The actuarial factors used to estimate individual retiree and spouse costs by age and gender were updated. The new factors are based on a review of historical claims experience by age, gender, and status (active vs. retired) from Segal's claims data warehouse.

# Introduction to the Statistical Section (UNAUDITED)

The contents of the statistical section of the annual comprehensive financial report presents information regarding financial trends, revenue capacity, debt service and debt capacity, demographic and economic information and operating information.
Financial Trends
These schedules should help the reader understand how the Authority's financial performance and well-being have changed over time.
Revenue Capacity73-79
These schedules contain information in order for the reader to assess the Authority's most significant revenue sources.
Debt Capacity
These schedules contain information in order for the reader to assess the affordability of the Authority's current levels of outstanding debt and the ability for the Authority to issue additional debt in the future.
Demographic and Economic Information
These schedules offer demographic and economic indicators to help thte reader understand the environment within which the Authority's financial activities take place.
Operating Information
These schedules contain service and infrastructure data to help the reader understand how the information in the Authority's financial report relates to the services the Authority provides and the activities it performs.

(1) The Authority assumed the Industrial Permit for Riverbend in 2013 after the facility was purchased from a rendering plant.

There were no process flows other than rain water infiltration. The domestic permit has an initial

permitted treatment capacity of 1.0 MGD. September 2018 to current is under permit number GA0050242.

#### Independent Auditor's Report on Internal Control over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed In Accordance with *Government Auditing Standards*

To the Board of Directors Cherokee County Water and Sewerage Authority Canton, Georgia

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, the financial statements of Cherokee County Water and Sewerage Authority, as of and for the year ended August 31, 2024, and the related notes to the financial statements, which collectively comprise the Cherokee County Water and Sewerage Authority's basic financial statements and have issued our report thereon dated November 15, 2024.

#### Report on Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered Cherokee County Water and Sewerage Authority's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Authority's internal control. Accordingly, we do not express an opinion on the effectiveness of the Authority's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the Authority's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

#### **Report on Compliance and Other Matters**

As part of obtaining reasonable assurance about whether Cherokee County Water and Sewerage Authority's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grants agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

#### **Purpose of This Report**

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of Cherokee County Water and Sewerage Authority's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Authority's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.
